Preparing For Junior Grand National

CAMPBELL HIGH HAD FIRST FUTURE FARMER CHAPTER IN CALIFORNIA

By Bob Olson

Members of Campbell High School's Chapter of the Future Farmers of America are getting ready to spend Easter vacation at the Cow Palace in San Francisco, where they will again participate in the Junior Grand National Livestock Exposition between April 10 and 15.

How well Campbell does at this showing is of great interest to other chapters, for CUHS has long been considered the leader as well as pioneer in this movement. Actually the local high school had a "Future Farmer" chapter long before it was officially given that name in 1928. Before that time "Aggies" were familiar in every state in the union, including California. Our country has had agricultural high schools and colleges ever since vocational agriculture was proclaimed an authorized part of the high school curriculum by the Smith-Hughes Act in 1917.

The first Vo-Ag class in the state of California was started at Campbell High School shortly after the act went into effect. Al Smith has been an Ag instructor at Campbell ever since 1945 shortly after being graduated from Cal Poly.

While at this San Luis Obispo college, Smith was feature editor of his college paper and student body president. He is now known as "the most eligible bachelor in Santa Clara Valley" and for his mastery of 499 acres of rich California soil. Campbell's second Ag instructor, Dick Davis, joined the local faculty in September, 1952. Davis is also a graduate of Cal Poly and lives with his wife and young son in King's Acres.

The first boys' Ag class at Campbell had only seven students. Three of these, William Wiesendanger, Raymond Gardner, and Mark Smith are active Santa Clara Valley farmers, and Oliver Jensen is now a Campbell city councilman.

The FFA at Campbell High School is much more than a club or farm fraternity. Its 67 members under the leadership of student president, Teddy Bohn, and faculty advisors Smith and Davis, live up to the high aims of their motto: "Learning to Do, Doing to Earn, Earning to Live, Living to Serve". An dthey learn more than agriculture for they become adept at conducting public meetings, practice habits of thrift, learn to buy and sell co-operatively, to speak in public, and to consider first the rights of others. In carrying out individual projects, FFA members learn management, better farming methods, and self reliance. Every year two boys from the local chapter enter a "fryer contest" sponsored by Al Bihn of Santa Clara Hatchery. This year Bihn donated 50 chicks each to Norman Buchanan and Randall Nutting. If either of these contestants of ours has (1) the lowest feed cost and (2) the most weight in chickens in 10 weeks of all county FFA members, he will earn 200 chicks of his own as a prize. If you've priced fryers lately, you'll agree that raising poultry can be mighty profitable whether a hobby or a vocation.

Every FFA day has an individual project concentrating on farm machinery, poultry, sheep, or livestock. Many of Campbell's FFAers are readying hogs, lambs, or steers for the Junior Grand National only a month away now. Many are already working toward the 1954 County Fair raising hogs, lambs, and feeder calves. All CUHS members are now engaged in pouring a concrete feeding unit for hogs at hte school farm, and working for the school Feed Cooperative is an all-year-round job. Campbell's Future Farmers rent twenty-eight acres of land where they raise barley, oat, and vetch hay.

And still there is time for a great recreational program. Many of the boys saw snow for the first time on a Lincoln's Birthday tour of Yosemite. Your first seven feet of winter whiteness can be an unforgettable experience! The club formally meets twice a month in Room 65 and has a well-earned reputation for serving the best refreshments of any school organization. There's always one or more big projects on the fire; the boys recently trimmed two elaborate floats for that sensational three day Old Settlers' Parade which still have people talking.

This Saturday Richard Davis, Roy Plumb, and Charles Nigl will represent our chapter at the South Coast Regional Meeting of the California Agriculture Teachers Association and the California Future Farmers touring the Soledad State Penitentiary and prison farm.

Water Rate Hike To Affect Campbell Area

Tentative approval to the application of the San Jose Water Works to increase rates for water service in Campbell, Los Gatos, Saratoga, San Jose and vicinity is made in a decision Tuesday by the Public Utilties Commission of the State of California.

The applicant sought an increase of 23½% on the basis of estimated operations for the year 1953, contending that water rates have remained substantially unchanged here for 30 years except for reductions in 1933 and 1937.

Since 1941 the company added more than 25,000 more customers, increasing its plant investment by ten million dollars. Increased costs of operation affected all phases of the business, including 92% increase in the property taxes, 150% increase in wage rates federal income tax requiring $1.17 to be collected from rate payers for each dollar collected for the company's own use. To offset the cost increase, the company added modern machinery and methods of operation. The company contends it serve an increase of 85% customers without having increased its number of employees. Costs increases and additional capital required, has not offset increased revenues, hence the need for rate relief.

The Utility Commission ruled favorably on the application to increase rates for all metered water service effective April 1, as follows:

First 500 cu. ft or less at $1.65 per month instead of $1.25 as at present; next 2500 cu. ft. at 23c per 100; 2700 at 15c and 30,000 cu. ft. at 13½c per 100. For 5/8x 3/4-inch meter the rate is $1.65 while for 3/4-inch meter the rate is $2.35; on-inch meter at $3.65. The minimum charge entitles consumer to quantity of water which the monthly minimum charge buys at the quantity rate.

There also is a limited irrigation service rate for agricultural irrigation purposes within the 460-acre unincorporated area formerly served by the E. R. Kennedy Pumping Plant system adjacent to Campbell. This rate is $3.60 per hour for a normal stream at full capacity from the present well and pumping plant, not less than 650 gallons per minute.

For private fire protection service to which no connection for other than fire protection is allowed under underwriter jurisdiction the service connection per month are to be $5.40 for four inch connection instead of $.50 as at present, and $9 for six inch connection instead of $7.50 at present.

Brydon from Latimer avenue. Also a group of residents from the San Tomas area living on Juanita and Estrellita avenues attended and presented a petition regarding a change of boundary line in that section. They wish to become a part of the Campbell Elementary School district, according to the petition.

Other matters taken up at the meeting included notice that the tuberculosis trailer will be at the El Quito Park School, Tuesday, March 30th at which time all employees of the school district will receive chest X-rays. Mrs. Elaine Kelley of 18079 Bucknall Road, was hired to teach a sixth grade class at El Quito Park School, two large sixth grades having been divided into three small groups.

MAYOR REPORTS CAMPBELL FISCAL STATUS IS GOOD

Mayor Richard Morton reported Monday night at the council meeting that present estimated revenues for the fiscal year is $109,500.45 as compared with the budget of $93,567. 90. The revenues include sums for license fees, permits and inspection fees, franchise fees, alcohol beverage control subvential, grant and motor vehicle fines and forfeitures as well as taxes.

"The result is that Campbell's total revenues are expected to exceed its expenditures for the current fiscal year by more than $15,000, plus any remaining balance of a $10,000 unportioned reserve as set up in the budget. This will be accomplished with a real property tax levy of 51c per $100 assessed valuation, slightly more than one-third the municipal tax levy at San Jose. In addition, Campbell has no bonded indebtedness" the Mayor reported.

Roman Banquet At High School Saturday Night

Something close to 200 banqueters of Campbell High school will be transported back to Rome this Saturday night. Latin students, teachers, parents, and friends of the Romance languages will be served authentic food in the authentic Roman manner. The menu will be written in Latin and feature baked pork, chicken, peas, beans, fruit, nuts, honey, cakes, grape juice, stuffed eggs, relishes, and lettuce salad. Early day Romans ran the gastronomical gamut "from eggs to apples". The six courses served here Saturday will include a grape juice course which is quite a ceremony. The slaves who serve (Latin I students) shoot dice to see who will be Master of Ceremonies.

Entertainment will include a "You Are There" gimmick. The audience will be transported "back" 2000 years to 44 BC and the Ides of March—the day Caesar had a seizure. This will feature slave dances, a flute solo, a vocal solo in Latin, wrestling match, a gladiator fight, and Marc Anthony's speech over Julius Caesar's body.

The girls' gym will be decorated with columns and murals resembling an elaborate Roman house of that period. Officers of the Latin club will laze about indulging themselves in the habits of Old Italy and dancing girls will be as pleasant to watch as they were before the Empire fell.

Rotary Hears Story Of The Philippines

Juanito, "Johnny" Areola, 18, a senior accounting major at San Jose State College, who arrived in the United States in 1950 from San Fernando of La Union province of the Philippine Islands, addressed the Campbell Rotary Club at their regular meeting Monday on "The Progress of the Philippines" in the past two years.

Rotarians commented on his fine appearance and well documented delivery.

A round table for visiting Rotarians will be held in place of the regular meeting next Monday, for on Friday Club members will assemble at the Lyndon Hotel at Los Gatos for their anniversary dinner and party. Guest of honor will be Wallace S. Meyers, district governor.

Red Cross Funds Short Of Goal

Incomplete returns for the annual Red Cross drive in Campbell are far short of the $4500 goal, Neal Royer, general chairman said this week. To date, $1861 has been collected.

"Returns from Moreland, San Tomas, business and professional district in Campbell and Cambrian are coming in slowly, and we have felt it necessary to continue the campaign until the end of March in order to make a respectable showing," Royer said.

COUNCIL CLEARS WAY TO ANNEX WEST AREA

The city council cleared the way Monday for annexing a twenty-two lot tract on the westerly limits, and for a 32 lot subdivision on the easterly limits. The dog catcher contract was approved, but the bids for a new fire truck were all rejected so that specifications may be clarified and new bids called. The 5.04 acre tract within the bounds of Arroyo San Tomas Aquina, Latimer avenue, Hardy avenue, and Campbell avenue, and owned by Albert G. Warning, Walter Dahlin and others, was given tentative approval by the council on motion of Councilman Joseph Gomes who pointed out that city boundaries would thereby become more symmetrical and the tract would then have better police and fire protection. Ultimate plans, according to City Engineer Mark Thomas, calls for an extension of Llewellyn avenue through the tract to Campbell avenue. Thomas reported that the tract was approved that day by the County boundaries commission.

The city engineer reported that street work had been completed in the Sunberry Gardens subdivision and recommended acceptance of street title with responsibility for street maintenance, as proposed in a letter from Stone and Shulte, subdividers.

The final map for Unit 3 of the Keuhnis Estates as submitted to the council Monday, seemingly conforms to the tentative map, with bonds and agreement in order, according to the city engineer and City Attorney Joseph Bonacina, so Councilman J. M. Dahl moved and council approved the map subject to recordation. Don Stone of the firm, Stone & Shulte, subdividers told the Press that improvements of street work, sewer and water lines costing $30,000 would start at once for a new 32 home tract. A new street will be laid out parallel with April Way and Richlee Drive. The firm is reserving 500 foot frontage along the San Jose-Los Gatos road for a future development.

Police Chief Robert J. Locke was delegated to attend the Santa Clara County Chapter meeting of the National Safety Council on March 26 at San Jose.

Two of the four bids submitted for the new fire truck did not conform to specifications relative to engine horse power, so all were rejected. Mack Motor Truck bid $15,900, Valley Equipment bid $18,565, Coast Apparatus bid 13,320 and P. E. Van Pelt bid $13,339. New bids are now being called for March 22 under revised specifications.

The dog impounding agreement with the county health department was authorized signed, subject to approval by the County Board of Supervisors. The cities of Sunnyvale and Los Altos have likewise signed the agreement. The agency will act here only on call from the city until the end of the fiscal year, when a more definite plan is to be worked out.

Request for removal of two sycamore trees at 26 Sanford avenue was deferred so that LeRoy Black of the Maintenance Department can study ways for walk repairs and control of roots getting into the sewer line. Mayor Richard Morton said that some cities give trees to property owners in order to beautify streets, and as these trees, full grown have both shade qualities and beauty, the city was reluctant about having them cut down because roots were seemingly out of control.

Charles Rose, native of Campbell, and owner of the Orchard City Grocery and Appliance Store on Central avenue, who is a candidate for the office of City Councilman. Rose advocates greater development of the business sections of Campbell.

THE TRAFFIC SURVEY

A lot of effort is being made by public spirited people of Campbell in conducting on April 2, a traffic survey. From it will come some report on the parking habits of motorists, if on business, for shopping or for pleasure in the various zones of the city.

At this stage of development, it is not easy to indicate where the most important center for mercantile development will be, but there is a positive indication to the effect that such development is on its way.

It will take the help of many civic organizations to carry on this traffic count for sixteen hours. So far there has been nothing but enthusiasm toward the effort. To hire traffic counters for any such survey would cost the city quite a sum of money. The work proposed now is to be done by volunteers.

CAMPBELL BALANCES ITS BUDGET

Mayor Richard Morton is entirely in order defending the fiscal status of the City of Campbell against published allegations by a proponent for annexation of East Foothills to San Jose. Certainly the record shows Campbell to have one of the lowest city tax rates in Santa Clara County; it has no bonded indebtedness; it will not only balance its budget, but will have revenues exceeding its estimated budget.

There is a controversy over the propriety of San Jose annexing or having the East Foothills incorporated, a controversy which is of no concern here. But they can't use Campbell as a political football, quoting misleading figures to gain their point that incorporaton here is not a success. As a matter of fact, we are doing quite all right.

BE KIND TO NATURE

On the coastside near Santa Cruz is a 133-acre tract certified as a redwood tree farm. It is about time that we do something about perpetuating the redwoods. Those tall giants which covered the California coast a quarter of a century ago have been felled one by one until now there is but a scant grove here and there for us to look at in awesome wonder. Years, yes centuries, have been required by nature to build these monuments, yet in a quarter of a century we have hewn them down. Be kind to nature might be a good observance to introduce. The world has been giving Nature a rough time this twentieth century, and she has taken just about all that she can stand. Nurture and coddle her, and she will do wonders for a new generation. Any further abuse and we're on our own.

ST. PATRICK'S DAY

For a plot of ground as comparatively small as Ireland, it has more than done its share in providing the world with famous men and winning itself a place of distinction in the family of nations. Best known of all its great is, of course, the patron saint of the Irish St. Patrick, whose memory is honored each year on the 17th of March. On this day all the world is Irish. The wearin' of the green transcends national borders and nationalities and many who are no more Irish than the man from outer space sport the color of the Emerald Isle with as much enthusiasm as the natives of the auld sod. It all makes for a happy occasion.

YOU ARE THE RED CROSS

No one who is even remotely aware of what goes on in the world day by day needs to be reminded of the multitude of services performed by the Red Cross. But t is necessary sometimes to remind ourselves of our responsibility toward it.

This great humanitrian organization has become so much a part of our local and national life that we couldn't imagine doing without it. But the Red Cross does not have a magic existence. It cannot carry on its services independent of public support. Its achievements are made possible not only by the unselfish volunteers who give of their time in order to help others, but by the donations, large and small, which come from individuals. groups and business concerns.

As is the custom each year, the Red Cross is conducting its annual drive for funds during March. In some communities it is a residential campaign only, since the Red Cross in those communities shares in United C. usade funds. In other cities it is a full-scale drive. But in either instance generous donations are needed to assure the continuation of Red Cross services.

The Red Cross can be no more effective than you make it. Make it better still by giving more.

THE STANDARD HOUR

The Standard Hour, for years a popular Sunday evening radio feature, is to be broadcast from San Jose next Sunday evening. The San Francisco Symphony orchestra directed by Carmen Dragen is to conduct the broadcast from the civic auditorium.

Santa Clara County is fortunate to have this outstanding performance and it will be well worth seeing and hearing in person.

WHAM! IT'S BASEBALL TIME

With the coming of Spring and warmer weather thoughts turn naturally to baseball. There are stories in the papers about training camps and the new crop of rookies; there are the high school teams, the sand lot teams and even the Little Leaguers. It's baseball that is the real American sport—something for youth to be active in; something for the business man to talk about and to watch. Millions do it.

Light Rain; Late Bloom, Says Expert

Up to the present time, the 1953-54 season has been one of the dryest seasons on record and all fruit sections are in need of much more rain than we have had during the last 60 days. W. S. Rice, Field Department manager of California Prune and Apricot association said in a recent report, excerpts of which appear below.

Rainfall to date for the entire state south of Redding is from 20 to 35 percent below normal and the snow pack in the mountains surrounding the interior valleys is likewise far below normal.

"The buds on most fruit trees seem to be developing very satisfactorily. In spite of the moderate temperatures that we had during the past two months, we do not expect to have apricots, peaches or prunes in full bloom as early as they were last year.

"The bud development in apricots would indicate a very spotted condition in some sections of the Santa Clara District. This apricot bud condition is true for Royals, Blenheims, and Moorparks. The Tilton variety points to a very light bloom in some sections, or a very late bloom due to the late development of buds.

"The buds on peach trees indicate a fair to normal peach bloom. However, some of the peach orchards that produced a very heavy crop last year are indicating a scattered bud condition.

"At the present time, there is no indication that the prune blooms will be any earlier than it was last year, and possibly we can expect prunes to be in full bloom the last week in March or the first week in April.

"There are no 1953 crop prunes held by growers for sale at this time. We find an occasional grower who is holding his 1953 crop of dried apricots. These growers missed the early market, refused to sell their apricots later at 32 cents, and have held them through until this date. Good quality dried apricots in the Santa Clara District were sold last week at 25 cents a pound and the grower had to give the handler an open contract on his 1954 crop dried prunes in order der to get this price for his carryover dried apricots."

BRUCE ALLEN TO RUN FOR SENATE

Bruce Allen, Assemblyman from the 29th District, Santa Clara County today tossed in his hat as a candidate for State Senator, the seat now held by Senator John F. Thompson of San Jose. In a message to the Press from Sacramento, Allen said he had decided to seek the Senate post at the request of many friends.

Little League Baseball Plans Are Shaping Up

Officers are being elected, meetings are being held, and organization plans for the Little League Baseball season, are beginning to form a large part of the Campbell Union High School District Recreation agenda.

The league opens May 22 and continues to August 15.

Ken Robinson, CUHS district recreation director says the Campbell League will be divided into sections, north and south. The line is Payne Avenue and Meridian Road.

There will be four teams in each section. In the Campbell proper area, the Campbell Merchant Stamp Association will again sponsor a team under the management of Merv Willoughby. Back from last year's participation will be the Western Gravel sponsored "Pirates". Two more teams, however, are needed from this section to complete the four-team league. There is talk that the Cambrian Park Merchants are to sponsor a club this year, and Berkeley Matthews, of Union School, may manage a team or may throw in with the Cambrian Merchants, according to Ken Robinson.

There may be a meeting tonight in the office of Laurance J. Hill, general chairman of the Campbell Union High School District Recreation League to make more concrete organization plans for the Campbell section of the league.

In the northern section of the Little League, things are pretty well-organized.

Ralph Salmon, district superintendent of Luther Burbank School District is the league president; Robert Sidensol is vice-president, Robert McCrory is treasurer, and Wade Burmmel is secretary.

Schools which are to participate in the league are: Cypress, Moorpark, Burbank, and schools of the Sunol district. One half of Rosemary district and one half of Moreland district will be in the northern party of the Campbell High School district league.

Actual teams which will play in the northern section are the same as last year, namely: the Burbank "Lions", and the Burbank "Pirates", sponsored by the Burbank Lion's Club.

The Burbank Rotary is sponsoring a club again, and the Youth Center of Burbank school will again enter a peppy ball club.

All games of the Burbank section of the league will play their games in the Burbank Park. Their first practice game as a team will take place on April 10. First league game is on Saturday May 22.

The southern section of the league will hold their games on the Campbell Grammar school diamond.

GOLFERS MEET LICK TODAY

Campbell divoters meet their third opponent of the season tomorrow at Hillview golf course, when they match strokes against James Lick High School at 3 p. m.

Dick Jordan, Bill Lawson, Gordon Peffley and Bud Feasel are returning members of this year's golf team. Jordan was a SCVAL medalist last year.

Ray Kay, Art Duffy, Gary Therous, and Bill Ward make up the rest of the Campbell High squad.

The Buc team so far has met Stanford freshmen, who defeated them 23½ to 3½, and was leading Los Gatos High School at Rinconada, Monday, 11-1, at the end of nine holes, when the match was called because of rain.

BASEBALL SCOUTS ARE WATCHING JOHNNY OLDHAM, CAMPBELL STAR

(Special to Campbell Press)

Johnny Oldham, former Campbell High School star, and one of the West's established collegiate pitching stars, is starting his senior season at San Jose State.

The big lefthander, who has been followed by professional scouts since his high school days is the acknowledged strikeout king of the Pacific Coast in collegiate baseball. In two varsity seasons, he has struck out 267 men in 211 innings. In that time he has won 13 games while losing 11 which compiled a fine earned run average of 3.33. He has been named to the NCAA All-Pacific Coast squad the last two years.

Wildness has been the only drawback to Oldham's fine work and indications are that he has that licked this season. He and righthander Doug Boehner combine to make one of the best pitching tandems in the collegiate ranks, and should enable Coach Walt Williams to have one of his best years at San Jose State.

Oldham was named player of the year in the SCVAL while at Campbell and was voted the award as outstanding player in the North-South prep all-star game in 1950. Johnny also played football and basketball in high school.

As a freshman at San Jose State, Oldham won eight out of nine games, his only loss coming in a 15-inning thriller, and he averaged nearly two strickeouts per inning, fanning 123 in 69 innings.

Johnny, who is a recreation major, and his father, Frank Oldham of 177 Camden avenue, insist on his finishing education before signing for pro ball but he hopes to start in professional ball this summer.

STEIN'S NINE, JUNIOR COLLEGE CLASH TODAY

Weather permitting, Mel Stein's baseball nine will cross bats with San Jose Junior College this afternoon at 3:15 p. m. on the Buc diamond with Larry Sutton and Bert Nolan alternating on the mound for Campbell.

It will be the first game for Campbell all week and the third since the season started March 2. Wet weather squelched a scheduled non-league tilt with Menlo School at Menlo Tuesday. To date the Bucs have knocked off Willow Glen and Lincoln, and according to coach Stein are shaping up fast.

There will be another test tomorrow afternoon which local fans can take in since it's played on the high school field. This one pits the Buccaneers against San Jose Tech. Game time is 3:15 p. m.

Johnny Oldham Hurls Opener

Johnny Oldham of Campbell, the ace hurler for San Jose State College fanned ten and walked five when pitted against the Stanford University nine Saturday on the Indian's sunken diamond. Making his first start of the season, the big southpaw, lost 5 to 3, although the Indians were credited with three unearned runs.

The same teams met Monday at San Jose Municipal stadium, the Indians ringing the bell again with a 5-3 win with Doug Boehner hurling for San Jose.

Local Anglers Report Catches Over Week-End

Fishing continues good at Anderson Dam and at Frank's Tract, Campbell area anglers who checked in with Tony Cefalu at Campbell Sport Shop reported.

Six stripers ranging in weight from four to eleven pounds, using light spinning tackle and frozen bait, was the catch reported by Harold Inouie and his brothers from Route one, Box 152B, Saratoga.

The organe, green, and black Bomber Plug is still the hottest thing for trapping black bass at Anderson Dam, Mr. and Mrs. Vernon Welch of Pollard Road reported Monday morning following a week-end trip.

"They ought to know," Cefalu said, "for they showed me two limit catches of black bass ranging in weight from two to five pounds apiece."

Campbell Police chief Robert J. Locke and Pete Cefalu, too, report good fishing at Anderson Dam over the weekend. They brought back a mess of bluegills and some black bass.

Another Campbell angler, Frank Emond, of 30 South Second street, snared a twenty-five pound ling Cod with a hand drop line using squil and herring on a deep sea fishing trip off Santa Cruz last Saturday.

An added feature of the day was a class "C" tournament. These midgets displayed some good basketball as they played their eight game schedule. Campbell lost its opener to Union, but bounced back to victories over Cambrian, Union and Burbank.

The tournament was directed by Bob Landreth of Campbell Union School District, and the officiating chores were shared by Ted Jones (Cambrian), Ray Parney (Union), Duane Beaubien (Campbell), and Landreth.

Team trophies and player awards were donated by the Campbell Kiwanis Club. Each player was given a certificate, and winning and runner-up teams received trophies. Burbank School donated the Class "C" trophy.

New Officers Elected For Campbell Co-Op

William H. Cilker, president; B. W. Steindorf, vice-president; Robert Scholz, secretary, and Joseph V. Comes and E. W. Bucknall are the 1954 board of directors of Campbell co-operative Dryer, elected at a recent meeting and dinner for more than 220 members and guests in the cafeteria of the Campbell Union Grammar School.

The dinner, prepared by Mrs. Florence Fuller, superintendent of the cafeterias of the Campbell Union High School District and her staff, consisted of a chicken dinner which included especially prepared prunes and apricots, was topped off with prune ice cream for dessert.

T. O. Kluge, General Manager of the California Prune and Apricot Growers Association was the guest speaker of the evening. He complimented the members of the Campbell Cooperative Dryer for the farsightedness in developing their dehydrator plant and for their contribution in development of dehydration methods and design of special machinery and equipment.

A report on the activities of the various Associated affiliated cooperative dryer was given by Gay Schrader, in charge of the dehydration service department, and former superintendent of the Campbell plant. He said that the demand for dryer and Association membership in most parts of the state was responsible for the largest dehydrator construction program since 1947. He stated that 52 tunnels are being built this year, plus many other improvements. These additions will bring the total of co-op dehydrator tunnels to 349, which will provide a total drying capacity of 85,000 tons per season. Several dryers will install new synchronized equipment operated by electric eye. Many dryers are also installing new leaf disposal equipment to further improve the high standard of operating conditions.

The excellent returns made by the Association to members and drying service rendered by the cooperative dryers were cited as responsible for the growth in membership,

Hermann Gerdts, manager of the dehydrator, thanked the members for their evcellent cooperation and expressed his satisfaction at the successful mechanical operation of the entire pjlant. He explained the financial statement and discussed the operating policy of the plant and the need for experienced help for key positions.
